EXAMINER

BUI, LUAN KIM

ART UNIT PAPER NUMBER

3728

DATE MAILED: 08/02/2006

Please find below and/or attached an Office communication concerning this application or proceeding.

Office Action Summary	Application No. 10/697,931	Applicant(s) NELSON ET AL.	
	Examiner Luan K. Bui	Art Unit 3728	

-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

Status

- 1) ☒ Responsive to communication(s) filed on 23 June 2006.
- 2a) ☒ This action is **FINAL**. 2b) ☐ This action is non-final.
- 3) ☐ Since this application is in condition for allowance except for formal matters, prosecution as to the merits is closed in accordance with the practice under *Ex parte Quayle*, 1935 C.D. 11, 453 O.G. 213.

Disposition of Claims

- 4) ☒ Claim(s) 3-12 is/are pending in the application.
- 4a) Of the above claim(s) _____ is/are withdrawn from consideration.
- 5) ☒ Claim(s) 3 is/are allowed.
- 6) ☒ Claim(s) 4-9, 11-12 is/are rejected.
- 7) ☒ Claim(s) 10 is/are objected to.
- 8) ☐ Claim(s) _____ are subject to restriction and/or election requirement.

Application Papers

- 9) ☐ The specification is objected to by the Examiner.
- 10) ☐ The drawing(s) filed on _____ is/are: a) ☐ accepted or b) ☐ objected to by the Examiner.
Applicant may not request that any objection to the drawing(s) be held in abeyance. See 37 CFR 1.85(a).
Replacement drawing sheet(s) including the correction is required if the drawing(s) is objected to. See 37 CFR 1.121(d).
- 11) ☐ The oath or declaration is objected to by the Examiner. Note the attached Office Action or form PTO-152.

Priority under 35 U.S.C. § 119

- 12) ☐ Acknowledgment is made of a claim for foreign priority under 35 U.S.C. § 119(a)-(d) or (f).
- a) ☐ All b) ☐ Some * c) ☐ None of:
1. ☐ Certified copies of the priority documents have been received.
 2. ☐ Certified copies of the priority documents have been received in Application No. _____.
 3. ☐ Copies of the certified copies of the priority documents have been received in this National Stage application from the International Bureau (PCT Rule 17.2(a)).

* See the attached detailed Office action for a list of the certified copies not received.

Claim Rejections - 35 USC § 102

1. The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

2. Claims 11 and 12 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Marotta (5,600,889). Marotta discloses a pizza box (40) and lid support (26) in the embodiment of Figure 11 comprising a pizza box (40) retaining a pizza (46) and a lid support (26) placed in the pizza box. The lid supporting comprising a support platform (12) supported above the pizza by at least one support leg (30) and prevented a lid (44) of the pizza box from contacting the pizza, and a handle (14) having an edge extending downwardly and outwardly from the support platform which is considered equivalent to a cutting edge as claimed. The edge of the handle of the lid support of Marotta is inherently capable of being used as the cutting edge.

3. Claim 11 is finally rejected under 35 U.S.C. 102(b) as being anticipated by Beck et al. (4,877,609; hereinafter Beck'609). Beck'609 discloses a pizza box (10, 12, 14) and lid support (30) comprising a pizza box (14) retaining a pizza (20) and a lid support (30) placed in the pizza box. The lid supporting comprising a support platform (40, 42) supported above the pizza by at least one support leg (60) and prevented a lid (12) of the pizza box from contacting the pizza, and the support leg having an edge (along portion 64 in Figure 2) extending downwardly and outwardly from the support platform which is considered equivalent to a cutting edge as claimed.

Art Unit: 3728

The edge of the support leg of the lid support of Beck'609 is inherently capable of being used as the cutting edge.

4. Claims 4 and 5 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Montesi (3,877,143). Montesi discloses a implement (10) comprising a support platform (14), at least one leg (12, 16) supporting the support platform above a support surface and a cutting edge (40, 42) extending downwardly and outwardly from the support platform toward the support surface (Figures 1-3). The implement of Montesi is inherently capable of being as a lid support. As to claim 5, the support platform (14) includes a grasping member such that the support platform serves as a handle to use the cutting edge as a cutting implement.

5. Claims 4 and 5 are finally rejected under 35 U.S.C. 102(b) as being anticipated by Fulton (1,612,367). Fulton discloses a implement (Figure 1) comprising a support platform (16, 17), at least one leg (the middle leg 15) supporting the support platform above a support surface and a cutting edge (an edge of the two outer legs 15) extending downwardly and outwardly from the support platform toward the support surface (Figure 1). The implement of Fulton is inherently capable of being as a lid support. As to claim 5, the support platform (16, 17) includes a grasping member (17) such that the support platform serves as a handle to use the cutting edge as a cutting implement.

Claim Rejections - 35 USC § 103

Art Unit: 3728

6. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

7. Claim 6 is finally rejected under 35 U.S.C. 103(a) as being unpatentable over Montesi (3,877,143) in view of Steck et al. (6,694,619; hereinafter Steck'619). Montesi discloses the implement (10) as above having all the limitations as claim except for the grasping member being a hole in the support platform. Steck'619 teaches a cutting implement comprising a cutting edge (1) and a grasping member is a hole (2, Figure 1). It would have been obvious to one having ordinary skill in the art in view of Steck'619 to modify the implement of Montesi so the grasping member comprises a hole to facilitate grasping during using the implement.

8. Claims 7-9 are finally rejected under 35 U.S.C. 103(a) as being unpatentable over Fulton (1,612,367) in view of Montesi (3,877,143). Fulton discloses the implement (10) as above having all the claimed limitations except for the cutting edge (of the outer legs 15) being provided on a serrated support leg. Montesi shows a implement (10) comprising a support platform (14) and a serrated support leg 12, 16) having a cutting edge (28, 30, 40, 42) (Figures 1-3). It would have been obvious to one having ordinary skill in the art in view of Montesi to modify the implement of Fulton so the cutting edge is provided on a serrated leg to facilitate cutting.

Allowable Subject Matter

9. Claim 3 is allowed.
10. Claim 10 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Response to Arguments

Applicant's arguments filed on 6/23/2006 have been fully considered but they are not deemed to be persuasive.

Applicant's argument with Marotta in the remarks is noted. This is not persuasive because the edge defined by a corner of two sections in the handle 14 of Figure 11 is considered equivalent to the cutting edge as claimed and because that corner edge is inherently capable to be used as a cutting edge.

Applicant's argument with Beck in the remarks is noted. This is not persuasive because the edge defined by a corner of two sections in the support leg 60 is considered equivalent to the cutting edge as claimed and because that corner edge is inherently capable to be used as a cutting edge.

Art Unit: 3728

Applicant's argument with Montesi in the remarks is noted. This is not understood because Montesi discloses the cutting edge 42, 46 extending downwardly and outwardly from the supporting platform 14 (see Figures 1-2).

Applicant's arguments with Fulton in the remarks are noted. They are not persuasive because the at least one leg 15 and the base portion 14 are capable of supporting the support platform 16, 17 and because nowhere in Fulton discloses that the at least one leg and the base portion can not support the support platform from free standing. Fulton further discloses the edge defined by a corner of two sections of the outer leg 15 is considered equivalent to the cutting edge as claimed and because that corner edge is inherently capable to be used as a cutting edge.

THIS ACTION IS MADE FINAL. Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event,

Art Unit: 3728

however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.

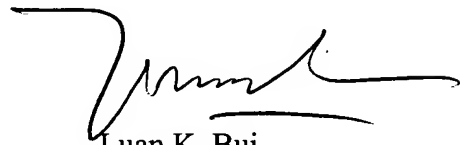

Conclusion

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Luan K. Bui whose telephone number is 571-272-4552. The examiner can normally be reached on 8:30-6.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Mickey Yu can be reached on 571-272-4562. **The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300 for Formal papers and After Final communications.**

Information regarding the status of an application may be obtained from the Patent Application Information Retrieval (PAIR) system. Status information for published applications may be obtained from either Private PAIR or Public PAIR. Status information for unpublished applications is available through Private PAIR only. For more information about the PAIR system, see <http://pair-direct.uspto.gov>. Should you have questions on access to the Private PAIR system, contact the Electronic Business Center (EBC) at 866-217-9197 (toll-free).
